

ARULDASS J

[LinkedIn](#) | [GitHub](#)

Aspiring Cloud Engineer | Skilled in AWS, Python, Linux, SQL, CloudFormation, Lambda, S3, EC2, VPC & RDS/Aurora

EXPERIENCE

Software Development Intern

SIEMAS Technologies Pvt Ltd., a product and engineering services company based in Chennai Metropolitan | [SIEMAS](#)
June 2025 – July 2025

Software Development Intern

TechCiti Software Consulting, a web design and software development company based in Bengaluru | [TECHCITIE](#)
February 2026 – March 2026

PROJECTS

AWS Resume Processing & Database Automation

Built an AWS solution using S3, Lambda, Aurora PostgreSQL, IAM, and CloudWatch for automated resume processing and database storage.

AWS Bastion Host & Serverless Data Analytics

Designed a secure AWS architecture using VPC, Bastion Host, EC2, Lambda, RDS, DynamoDB, and Redshift with private subnet access, IAM security, and CloudWatch monitoring.

AWS Cloud Infrastructure & VPC Setup

Configured AWS VPC with public/private subnets, EC2, route tables, security groups, and IAM for secure cloud infrastructure.

AWS Data Analytics – Amazon Redshift

Built a data warehouse using S3 and Amazon Redshift for storing, querying, and analyzing datasets with IAM-based access control.

AWS Serverless Application

Built a serverless application using API Gateway, Lambda, DynamoDB, and CloudWatch for API-based data processing and storage.

Hostel Registration App

Developed a Flutter-based hostel registration app with FastAPI backend for student registration, room allocation, and admin management.

AI Copy/Paste Automation – UiPath

Developed an automated copy/paste solution using UiPath to reduce repetitive data-entry tasks and improve efficiency.

Computer Vision Projects – OpenCV

Developed image-processing applications for car damage, number plate, and object detection using OpenCV.

AI-Driven Automated Code Bug Detection and Fix Recommendation System

Developed an automated system in Python that detects code bugs and suggests fix recommendations.

SKILLS

TECHNICAL SKILLS

Cloud & AWS: Amazon EC2, Amazon S3, AWS Lambda, IAM, Amazon VPC, AWS CloudFormation, Amazon CloudWatch, Amazon RDS/Aurora, SNS, SQS

Networking: VPC, Public & Private Subnets, Route Tables, Security Groups, Network Configuration

Programming & Database: Python, SQL, PostgreSQL

Operating Systems & Tools: Linux, Git, GitHub

Development: HTML, CSS

Design & Media: Figma, Adobe Photoshop, Adobe Illustrator, DaVinci Resolve

Other Technologies: UiPath, OpenCV

CERTIFICATIONS

AWS Solution Architect By Fita, Cloud Computing by Udemy, Python Programming by Udemy

EDUCATION

Bachelor of Technology in Department Information Technology. 2025-2026 Graduation: 2026

Current Sem CGPA 7.5

Completed Higher Secondary in Government Boys Higher Secondary School Keeramangalam. 2022
75.6%
